## Profile

Results-driven Python Developer with nearly 3 years of experience in backend development, data pipelines, and data processing. Proven ability to design, develop, and maintain scalable software applications with a focus on performance, stability, and maintainability. Skilled in collaborating with cross-functional teams to deliver impactful solutions and drive project success in dynamic and fast-paced environments.

## Work History

Oct 2024 - **Python Developer**

Current **Tata consultancy services (TCS)**

- Developed intelligent backend services including a Chat Assistant API using Claude LLM for context-aware support with organizational data integration via MCP protocols.
- Built a Smart Filter system leveraging LLMs to convert user queries into structured search filters, enhancing search relevance and user experience.
- Designed RESTful APIs integrated with Flask backend, implementing robust error handling and performance optimization.
- Collaborated with cross-functional teams to translate business requirements into scalable solutions.

Sept 2022 - **IAM Automation Engineer (Powershell & Python)**

Oct 2024 **Tata consultancy services (TCS)**

- Developed automation for IAM lifecycle management and mailbox provisioning using Powershell and Python.
- Integrated with ServiceNow, Active Directory, and Exchange Online, leveraging REST APIs.
- Automated error handling, email notifications, and updates for ITSM workflows.
- Managed Oracle user accounts in Oracle EBS R12, including provisioning, de-provisioning, and role assignments (manual and automate) using MYSQL and PowerShell.

## Skills

Front-End: HTML5, CSS3, JavaScript (ES6+), React.js

Back-End: Python Flask, Powershell, Node.js basics

Databases, API: MySQL, Rest API, Postman

DevOps/Cloud: Docker, Git, CI/CD, CORS, basic Azure exposure

Automation & IAM: Active Directory, Okta, Exchange Online

Other Tools: ServiceNow (reporting, dashboards, ticketing)

## Projects

### Weather Chat Bot Web Application

Built a chatbot using React JS, Flask, and OpenWeatherMap API, with dynamic UI, error handling, and LLM integration for improved responses.

### Personal Portfolio Website

Developed a responsive portfolio in React JS, CSS, and JavaScript, showcasing projects and skills with modular, reusable components.

### Powershell Automation for Mailbox Provisioning

Automated mailbox creation and management based on ServiceNow tasks, with secure integration and process notifications.

## Achievements

Special Initiative Award – 2 times in last 2 years

## Education

June 2019 - **Bachelor of Computer Application**  
July 2022

Tagore college of arts and science , Madras University -  
Chennai Percentage: 89

## Personal Details

**Date of Birth:** 10/04/2002      **Nationality:** Indian  
**Father's Name:** Sivaramakrishnan      **Gender:** Male
